

2016 – 17 ORGANIC FAIR FOR LIFE GRAPES

Sweet, succulent, and juicy, **AWE SUM ORGANICS** grapes will be a real treat to customers looking to offer Organic Grapes during the winter months. Grown just outside Piura, in a fertile region of northwest Peru, under the majestic Andean mountains and bathed in the rich glow of the Peruvian sun.

Each delicious grape is packed with antioxidants and phytonutrients, some of which have been found to aid in the health of our cardiovascular, respiratory, immune, inflammatory, and nervous systems. New research shows grapes may also provide an anti-inflammatory response and offer anti-aging benefits, as well as regulate blood sugar.

Additionally, all of these grapes are Fair for Life certified by IMO Switzerland, which guarantees fair wages, good working conditions and social responsibility at each and every stage of production and throughout the distribution chain.
