

HERITAGE RED DELICIOUS APPLE

AWE SUM ORGANICS' Heritage Red Delicious Apples are a variety that is every bit as scrumptious as its name implies. In contrast to the newer, burgundy varieties, it is distinguished by a warm, red color and laden with a crisp, sweet, candy-like taste.

Our Heritage Red Delicious Apple is the kind of apple your grandparents loved, and a favorite of apple experts around the world. These delicious apples are grown for Awe Sum Organics exclusively by PAI, a leading Fair for Life certified Argentinian exporter of organic tree fruit. The Heritage Red Delicious Apple is almost impossible to find anywhere else, as Argentina is the only country that hasn't replaced this delicious gem with the modern variety.

Heritage Red Delicious Apples are available in tray pack cartons, as well as 2lb and 3lb bags. Call your Sales Rep for more information and be sure to ask about our Fair for Life, fair trade certified apples.
