

Organic Peruvian Table Grapes

Sweet, crunchy, and flavorful, Awe Sum Organics' Peruvian Table Grapes offer our customers a full and reliable supply of high-quality organic table grapes for loading on both coasts during the winter months when organic fruit options are limited. Our growers' organic vineyards in Northern and Southern Peru combine to provide a full season supply of high-quality organic red and green seedless grapes as well as Red Globe seeded grapes (at much lower pricing than our seedless varieties).

All of our growers use our patented method for improving budbreak in table grapes that is 100% organically approved by the USDA's NOP and they also use our state of the art organic fertilization and pest/disease control programs for organic table grapes grown in Peru.
