

Organic Chilean Blueberry Program

Awe Sum Organics blueberries are bursting with sweet flavor and a hint of tartness your taste buds will love. These delicious and immune boosting berries are grown in the fertile soil and mild Mediterranean climate of Chile, they are cultivated with the utmost care and strict adherence to organic standards. Chile experiences little rain during growing and harvest seasons, ensuring a reliable and bountiful supply. This area produces some of the most Awe Sum blueberries available. We offer only the best varieties from the Chilean districts with the optimum climate for organic blueberries.
